Liam Perret
Everfall Games
Ottawa, ON

Dear Mr. Perret,

I am a computer science graduate with industry experience. This email is to express my interest in a software developer position at Everfall Games. I feel that this would be a great opportunity to further grow professionally and personally as well as be an asset for your company.

With my job experience working for Mevex Corporation, the skills I learned are directly inline with the requirements for this position. Some of my previous experience included:

- Self managing software projects
- Working with team members to solve unique software issues
- Coordinating with stakeholders
- Developing software solutions using C# .NET Framework (ASP.NET, WPF, WinForms)
- Created web services for global access to company database

Through my education, I have been trained in using multiple languages and frameworks for back and front end development using proper security protocol.

Furthermore, I have been engaged with various side projects within the last two years. These include a stock market algo trader, art projects in Adobe Creative Suite and game development in Unity.

Thank you for your time and consideration. I look forward to our meeting.

Sincerely,

Graham Pustina
